SUMMARY

Economist, researcher, writer, and advocate who uses data and policy analysis to address the economic challenges of our times. Cited in over 300 press articles, testified before Congress four times, and made over 50 media appearances. Written work featured in *The New York Times* and *The Washington Post*.

EXPERIENCE

2025–current

Vice President of Policy and Research, Economic Security Project, Washington, DC

- Drive strategy and goal-setting for policy, research, and agenda-setting work. Elevate ESP's visibility through press, events, and funder engagement.
- Manage a team of six plus six fellows producing policy briefs, factsheets, and research projects.
- Using AI to push frontier of what policy work can do, including AI research review process and building a public Affordability Dashboard.

2024

Chief Economist and Special Assistant to the President for Economic Policy, White House National Economic Council, Washington, DC

- Provided economic analysis for the National Economic Advisor and the NEC Deputy Director on inflation, growth, employment, tax, budget, and housing, working closely with Treasury and the Council of Economic Advisers.
- Led the White House's messaging on every macroeconomic data release and amplified it through speechwriting and engagement with reporters and academics.
- Held TS/SCI clearance; Tier 5 investigation favorably adjudicated.

2010–2023

Director, Roosevelt Institute, New York, NY

- Directed the Macroeconomic Research Team, authored over 20 white papers, edited four report volumes, and automated real-time data analysis in R and Python.
- Built the economic think tank from the beginning of the organization. Ran four multi-year initiatives on the Dodd-Frank Act, the Great Recession, inequality, and evolving paradigms.

2007–2009

Financial Engineer, Moody's KMV, San Francisco, CA

- Built testing benchmarks for the Moody's KMV credit risk model; prototyped research algorithms in R, SAS, MATLAB, and VB, cutting test execution time 40 percent.

2001–2005

Senior Test Engineer, Motorola, Schaumburg, IL

- Directed load and stress testing across, writing automated Six Sigma-level test cases in Perl, Python, and MySQL. Awarded Motorola BRAVO Award for "above and beyond performance contribution."

EDUCATION

2007

M.S. Finance, University of Illinois at Urbana-Champaign

- Graduate-level macro/microeconomics and econometrics; advanced financial research and option valuation (Monte Carlo, binomial tree) in R, SAS, and C++.

2001

B.A. Mathematics and Computer Science, University of Illinois at Urbana-Champaign

WRITING AND PUBLIC ENGAGEMENT

- Cited in over 300 articles, including The New York Times (32), The Washington Post (23), Vox (21), and Bloomberg (10). Four Congressional testimonies, and over 25 podcast appearances and 15 television interviews.
- Previous columnist for *The Washington Post* and *The Nation*; also publishes a Substack newsletter on economics and policy with over 4,000 subscribers.
